WHY DISTRICTS CHOOSE EDVISION

THE CHALLENGES WE SOLVE

Connected data, clearer decisions

01
Disconnected data delays decisions.

Districts run 8–12 systems. Manual reporting slows leadership and hides opportunity. Edvision unifies every source into one timely view.

02
AI needs a practical purpose

District teams need AI that addresses real questions. Our solutions apply AI to trusted data and the priorities that matter to your district.

03
Resources face growing demands

Declining enrollment and tighter budgets demand evidence. Finance, ops and academic teams get one intelligent view of impact.

THE EDVISION TECHNOLOGIES ADVANTAGE

From scattered systems to shared clarity

District-wide visibility

See academic, financial and operational information together.

Earlier risk signals

Spot emerging student needs and district concerns sooner.

Focused resource planning

Align staffing, spending and support with district priorities.

Measurable progress

Track goals, interventions and results over time.

Connects to your ecosystem

- Student Information System
- Learning Management
- Assessment Platforms
- ERP & Finance
- HR & Payroll
- Data Warehouse
- District Data Sources

Secure & compliant by design

- FERPA-aligned
- Role-based access
- Encryption in transit & at rest
- Data governance
- Privacy-first
- Secure cloud infrastructure

TRUSTED BY K-12 DISTRICTS

Real results, in their words

> “Having all this data at our fingertips is a game changer. Previously our SIS required digging through multiple reports. Now the data is centralized, visual, and actionable.”

Executive Director of Strategy & Innovation · Kentwood Public Schools (MI)

> “It streamlines all our data systems into one comprehensive tool. The Whole Child Dashboard has become essential during our Tier 2 and Tier 3 support meetings.”

Counselor · Greece Central School District (NY)
